

An **Early-Stage Startup** is looking for a **Cool Software Developer**

Job Title: Software Developer, Vancouver

Duration: From July 1st, 2021 to Jan 31st, 2022

Salary: \$19 per hour (35 hours per week) with a potential to become a permanent position

About the Company:

Castofly is developing an EdTech software platform to seamlessly create and collaborate on videos. It eliminates the need to use multiple software and reduces end-to-end content creation time by 70%. The files are up to 100x smaller than traditional videos and easy to change, which unlocks collaboration synergies between educators and learners, paving the way for a video collaboration platform equivalent to GoogleDocs for documents.

Job Overview:

We are looking for a software developer to help us push our current technology to the web. The ideal applicant will be a team player who is not afraid to learn and try new technologies even if it means hacking their way through a problem that no one has a clear answer to. They are ambitious, hardworking, self-motivated, and have decent communication skills.

Culture:

Castofly is a flat organization that no one is boss. We work together using an agile style and everyone is reporting to everyone! If you want to see how it feels to work in Castofly, please check out our Career page at castofly.net/career

Responsibilities:

- Help to transform our technology to a web-based platform
- Collaborate with the team to develop, implement, and test new algorithms

Intern Basic Eligibility Criteria

This position is partially funded by [Career Launcher](#) program. To be eligible, interns **must** meet the following criteria:

- post-secondary graduates, who are up to 30 years, or younger, at the start of the internship
- Canadian citizens or permanent residents

Qualifications:

- Working knowledge of an object-oriented programming language (Java, C++, etc.)
- Previous experience with AWS (lambda, Beanstalk, EC2) is a must
- Previous experience with Javascript and any JavaScript frameworks (Node.js, React, etc.) is a must

- Previous server-side programming experience is an asset
- Good understanding of object-oriented principles and design patterns

How to apply:

If you are interested in this position, please send your resumé and transcript to jobs@castofly.com with “Software Dev Application” in the subject.
